

Commercial Intern Program - Based in Glasgow city centre HQ

We're looking for our next intake of Interns for our Glasgow HQ to join the ground-breaking SIMUL8 team.

Why SIMUL8 Corporation?

Huge impact. The world's biggest organizations rely on our software. Our customers use our simulation technology to save lives in Healthcare, optimize Manufacturing plants, contribute to advances in Aerospace and so much more. You'll be designing, building, and shipping features that they'll love and enable global change.

Independence. We're hiring great people and letting them do what they do best. We'll support you with lots of mentoring and training, but there's no handholding or micromanaging. From day one you'll get big opportunities and big responsibilities.

Part of a great company. We've grown quickly from a start up to become one of the global power houses of process simulation. But we've kept our start-up vibe, culture, innovative enthusiasm and agility. At SIMUL8 Corporation every person counts and every person makes a difference.

What we offer you

- Competitive Salary
- A fun place to work with free soft drinks & snacks
- Autonomy in your work & flexible working environment
- Company afternoons out every month including, speed boat trips, go-karting and trips to the pub
- Commitment to provide you opportunities and resources to work with current and emerging technologies

What will you do?

- Research simulation sectors areas including:
 - ⇒ Customer research
 - ⇒ Analysis of market share
 - ⇒ Improvement of current simulation models
- Develop marketing materials including:
 - ⇒ Simulation models for our website
 - ⇒ Supporting research on whitepapers
 - ⇒ Help create demo models
- Work with a team of amazing account executives to grow our user base and infiltrate new markets.
- Interact with Fortune 500 Companies from day one!

What are we looking for?

- An amazing communicator that enjoys interacting with people
- A passion for analytics
- Working towards a 2:1 degree in Business/Maths/Engineering or relevant discipline
- Ability to multi-task and have a talent for plate spinning
- Effective self-starter who enjoys problem-solving, with a passion for technology and flexibility to adapt and learn whatever may be required.
- Experience of simulation or other modelling techniques (*desirable*)
- Ready to get stuck in!

How to Apply
